Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The amendment filed March 25, 2003 in Paper No. 4 is acknowledged and has been entered. Claims 1-21 have been canceled. Claims 22-34 have been added.
2. Claims 22-34 are pending in the application and are currently subject to the following restriction.

Election/Restrictions

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims 22-34, insofar as the claims are drawn to a recombinant soluble T cell receptor comprising a TCR α chain extracellular domain comprising a heterologous C-terminal dimerization domain and a TCR β chain extracellular domain comprising a heterologous C-terminal dimerization domain, classified in class 530, subclass 350.

Group II. Claims 22-34, insofar as the claims are drawn to a recombinant soluble T cell receptor comprising a TCR α chain extracellular domain comprising a heterologous C-terminal dimerization domain and a TCR δ chain extracellular domain comprising a heterologous C-terminal dimerization domain, classified in class 530, subclass 350.

Group III. Claims 22-34, insofar as the claims are drawn to a recombinant soluble T cell receptor comprising a TCR γ chain extracellular domain comprising a heterologous C-terminal dimerization domain and a TCR β chain extracellular domain comprising a heterologous C-terminal dimerization domain, classified in class 530, subclass 350.

Group IV. Claims 22-34, insofar as the claims are drawn to a recombinant soluble T cell receptor comprising a TCR γ chain extracellular domain comprising a heterologous C-terminal dimerization domain and a TCR δ chain extracellular domain comprising a heterologous C-terminal dimerization domain, classified in class 530, subclass 350.

4. The inventions are distinct, each from the other because of the following reasons:

The inventions in groups I-IV are disclosed as biologically and chemically distinct, unrelated in structure and/or function, and/or made by and/or used in different methods, and therefore the claimed products are distinct.

5. Because these inventions are distinct for the reasons given above and also because the search required for any one group is not required for any other group and/or the inventions have acquired a separate status in the art as shown by their different classification or their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen L. Rawlings, Ph.D. whose telephone number is (703) 305-3008. The examiner can normally be reached on Monday-Friday, 8:30AM-5:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Anthony C. Caputa, Ph.D. can be reached on (703) 308-3995. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0196.
